KIERAN EDWARDS

FRONT-END ENGINEER

hello@kedwards.dev | 07504 450 472 | kedwards.dev | in/kedwards96 | London

PROFESSIONAL SUMMARY

A Front-end Engineer with 9+ years of professional experience building, maintaining, and optimising responsive cross-browser web applications for enterprise-level global brands. Highly proficient in React, Next.js and TypeScript, with a proven ability to translate complex UI/UX designs and wireframes into clean, responsive, and pixel-perfect production code. Committed to engineering clean, semantic solutions that adhere to strict WCAG accessibility compliance while fostering a positive, collaborative development culture.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3/SASS

Frameworks & Libraries: ReactJS, Next.js, React Query, AngularJS, TailwindCSS, Storybook, Progressive Web Apps (PWA)

Testing & QA: Jest (Unit), Playwright (E2E), BackstopJS (Visual Regression)

Tools & DevOps: Git/GitHub/bitbucket, CI/CD Pipelines, Agentic AI Code Auditing

E-Commerce & APIs: RESTful APIs, Salesforce Commerce Cloud (SFCC/SFRA), Headless Architecture, SSR

Methodologies: Agile / Scrum, Cross-Functional Alignment (QA, UX & Product)

PROFESSIONAL EXPERIENCE

Front-end Engineer - WPP Enterprise Solutions **Aug 2017 - Nov 2026**

- **Architected reusable, scalable, and efficient front-end solutions** for high-traffic digital applications serving global, household-name brands, including Halfords, New Look, Calvin Klein, Tommy Hilfiger, and Selfridges.
- **Contributed to major platform migrations**, successfully transitioning legacy pages into modern, headless React and Next.js implementations.
- **Engineered Progressive Web App (PWA) solutions** and managed e-commerce workflows within Salesforce Commerce Cloud (SFCC) Business Manager.
- **Integrated complex, secure payment gateways** as a core engineer on the headless checkout team, utilising React Query for efficient state management and collaborating with backend developers.
- **Maintained a comprehensive automated testing ecosystem** utilising Jest for unit testing, BackstopJS for visual regression, and Playwright for End-to-End (E2E) automation.
- **Developed modular custom components** and maintained an organised Storybook design system to streamline design-to-production engineering workflows.
- **Leveraged Agentic AI development workflows**, rigorously auditing and refactoring AI-generated code to ensure compliance with strict security, accessibility (WCAG), and performance standards.
- **Collaborated within globally distributed Agile teams**, actively contributing to sprint planning, stand-ups and quarterly technical demos in close alignment with Backend, QA, UX, and Product stakeholders.

EDUCATION

BSc (Hons) Digital Technology - First Class Honours **2014 - 2017**
The University of Hertfordshire (Specialising in Multimedia Systems)

A-Levels: IT, Media, English Literature (Grade A* - C)
